

Article preparation criteria

The journal "SUSH Scientific Proceedings" is included in the list of the RA SCC. It is published in 2 issues a year. Paper printing is free.

Within 10 days after submitting the work, it passes technical review phase. The works, that will satisfy the publishing order, will be sent for review, otherwise they will be returned to the authors to match the technical part. The paper will be published in case of positive reviews from reviewers.

An electronic version of the article in Word or PDF format must be sent to the following e-mail: shsu.science@gmail.com.

The submitted article must meet the following requirements:

1. The articles should be presented in Microsoft Word Doc either in Armenian, Russian or English.
2. Page Size: A4, portrait.
3. Margin: 4 cm from the top, right, left, 5 cm from the bottom.
4. The Font Size: 12pt.
5. Font: Armenian: Sylfean, Russian: English: Times New Roman.
6. Line Spacing 1 pt.
7. Field of work, UDC (Universal Decimal Classification) code on the first line in the original language, in capital letters, equalization by width, bold.
8. The title should be introduced on the second line, in the language of original, uppercase, centered, bold.
9. The author's last name, first letters of first name and patronymic should be written on the third line, in the language of original, centered, bold.
10. Leave one single-spaced blank line to present the abstract of the paper in the language of original, justified, regular.
11. Leave one single-spaced blank line to present the key words (no more than 10 words) in the language of original, justified, regular.
12. After the missed 1 line, submit the information of items 8-11 in Russian and English, if the original language is Armenian, Armenian and Russian, if the original language is English, Armenian and English, if the original language is Russian.
13. Leave one single-spaced blank line to give the introduction: here in the frame of the article the author gives a brief review of publications on the subject, goal and topicality (not exceeding 1 page).
14. Leave one single-spaced blank line to introduce the main content of the article.

15. Submit the links in the text in square brackets, indicating the number of the given work from the list of literature: [1], [5-7].
16. The formulas in the article should be written using Math Type or MS Equation Editor. Only the formulas cited in the text must be numbered. Formula numbering must be done in the frame of the whole text (1), (2) ... justified. Numbering is to be on the same vertical line. All formula symbols need clarification. The dimensions of the quantities must correspond to the CI system.
17. All the tables must be presented in clear rows and columns, entitled and numbered.
18. Figures and pictures must be clearly introduced, they are to be entitled and numbered. It should be presented with jpg format.
19. Leave one single-spaced blank line before the conclusion not exceeding 0,5 page. The conclusion includes the main findings of the research.
20. References are listed at the end of the article in the following way.
