

## **Erasmus+ BOOST and international credit mobility projects monitoring at SUSH**

On June 23 monitoring of Erasmus+ BOOST and international credit mobility projects implemented at SUSH was held by the representatives of the National Erasmus+ Office led by coordinator Lana Karlova.

The representatives of the National Erasmus+ Office discussed with the administration of the university the details concerning international credit mobility, the results achieved and upcoming activities.

The outcomes of Erasmus+ BOOST project were discussed with the beneficiaries of the project, and the staff members of the center of External Cooperation and Public Relations. The beneficiaries spoke about their participation in the project, the chances they were given, as well as the activities carried out after the trainings.

The beneficiaries pointed out the importance of participation in international projects to gain professional skills, to learn best practice of European universities and apply it in the work aimed at strengthening the university.

The process of academic mobility was summed up with the students, administrative and pedagogical staff participating in the international credit mobility: what kind of problems the participants had, what support they received and how they shared the gained experience within the university.

National Erasmus+ office representatives expressed hope that participation of State University of Shirak in the international programs will continue with the involvement of new participants from different fields.
